SUPERINTENDENT - SOUTH YARD

David:

I have used your company's LINEBAGZ on our travel lift straps for the past six weeks and find that using these bags has saved half the time it takes to put visqueen plastic on the straps. I have been able to haul as many as 10 boats without replacing LINEBAGZ products, which is double the number of boats it was previously.

In addition, customers are impressed that we are so conscientious in trying to protect their boats during hauling and launching. We will definitely continue to use this fine product in the future.

Sincerely,

Tony Watson
Superintendent - South Yard
